

ARCHAKI MOHAMED

FRONT-END DEVELOPER

ABOUT ME

Mohamed Archaki, a beginner in Front-End development, passionate about creating captivating and engaging user experiences. I have a strong interest in designing beautiful and functional interfaces, striving diligently to strike a perfect balance between aesthetics and performance. Despite a lack of extensive experience, I have worked on a diverse range of projects showcased on my website.

JOB EXPERIENCE

Despite lacking previous experience in Front-End development, I have built small projects showcased on my personal website. These projects represent my initiative to delve into the field and apply acquired knowledge, showcasing my practical understanding and dedication to honing my skills in this domain.
