About Me :

As a beginner in Front-End development, I am deeply passionate about crafting captivating and immersive user experiences. I possess a strong interest in designing aesthetically pleasing and highly functional interfaces, constantly striving to strike the perfect balance between visual appeal and performance. Despite my relatively limited experience, I have actively worked on a diverse array of projects, all of which are showcased on my personal website.

I firmly believe in infusing creativity and uniqueness into every design or project I undertake. My ultimate goal is to deliver top-notch technical solutions that not only meet but exceed the expectations of my clients. I am committed to providing value and quality through meticulous attention to detail in every project I take on.

Education :

- Boumalene Dades High School
  Bachelor's Degree | 2018-2021

- Ibn Zohr University
  University Degree 2021

Job Experience :

While I may lack formal experience in Front-End development, I have independently developed several small projects showcased on my personal website. These projects reflect my proactive approach to learning and applying acquired knowledge, demonstrating a practical understanding and unwavering dedication to honing my skills in this field.

Skills :

- HTML5/CSS3
- JavaScript
- Adobe Photoshop
- Microsoft Word
- GitHub
- Tailwind CSS
- Microsoft PowerPoint
